The Disclosure Law. Pursuant to Minnesota Statutes Section 115.55, Subdivision 6, before signing an agreement to seil or to transfer real property, the seller or transferor must disclose in writing to the buyer or transferce information on how sewage generated at the property is managed. Unless the buyer/transferee and seller/transferor agree to the contrary in writing before the closing of the sale, a seller/transferor who fails to disclose the existence or known status of a subsurface sewage treatment system at the time of sale, and who knew or had reason to know of the existence or known status of the system is liable to the buyer/transferee for costs relating to bringing the system into compliance with the subsurface sewage treatment system rules and for reasonable attorney fees for collection of costs from the seller/transferor. An action under this subdivision must be commenced within two years after the date on which the buyer/transferee closed the purchase or transfer of the real property where the system is located.
